Notes to the Financial Statements

Note 1 Organization

Lumen Ventures Fund II, L.P. is a Delaware limited partnership formed in 2022 to make early-stage venture capital investments. The general partner is Lumen Ventures GP II, LLC. Total commitments are \$250,000,000, of which \$160,000,000 had been called as of December 31, 2024, leaving \$90,000,000 of uncalled commitments.

Note 2 Significant Accounting Policies

The Fund follows ASC 946 and carries investments at fair value. Early-stage investments are generally held at cost as the best estimate of fair value until a subsequent priced financing round or other observable event indicates a change in value.

Note 3 Fair Value Measurements (ASC 820)

All investments are Level 3. Marked positions are valued by reference to the price of the most recent priced financing round, adjusted for liquidation preferences. The written-down position (Looping Commerce) reflects a down round and reduced revenue trajectory.

Note 4 Related Party Transactions and Management Fee Offset

The general partner earns a management fee of 2.5% per annum of aggregate commitments during the investment period. Under the limited partnership agreement, 100% of any portfolio monitoring, director, and transaction fees received by the general partner or its affiliates are credited against (offset) the management fee. During the year, the general partner received \$1,800,000 of such monitoring and director fees. The general partner is also entitled to 20% carried interest, subject to an 8% preferred return and a full catch-up, on a whole-fund basis.

Note 5 Financial Highlights

Total Value to Paid-In (TVPI)	1.19x
Distributed to Paid-In (DPI)	0.00x
Residual Value to Paid-In (RVPI)	1.19x
Net IRR since inception	11.4%

Note 6 Subsequent Events

The Fund has evaluated subsequent events through March 21, 2025. In January 2025, Heliograph AI completed a Series B financing that the general partner expects to result in a further markup in 2025. No other material subsequent events were identified.
