Valuation Methodology and Disclosures

Level 3 Fair Value Process

All portfolio company investments are classified as Level 3 under ASC 820 due to the absence of observable market data. Valuations are performed quarterly using a combination of market approach (comparable company multiples — Revenue, EBITDA), income approach (discounted cash flow), and most recent financing round price as a calibration point.

For the quarter ended December 31, 2023, the Fund engaged XYZ Valuation Services, LLC as an independent valuation specialist to review Level 3 fair value measurements for investments comprising more than 80% of portfolio fair value.
